KUMON MATH & READING CENTRE OF WINNIPEG – GARDEN CITY
Unit 2 – 1099 Kingsbury Avenue, Winnipeg, MB R2P 2P9

December 3, 2015

We recently utilized Bison Software to provide us with a program to convert our pre-authorized payment data into a file that would be formatted in accordance with our Bank's PAP file import specifications.

Bison understood exactly what we needed based on our customer data and was able to provide us with an easy to use program that works every time, saving us countless hours of manual work.

We will be using Bison Software for any future programming needs and we recommend them to others looking for custom programming services.

Regards,
Bruce Cameron, CPA, CA, CBV, CFE
